TEN OAKS NURSERY AND GARDENS

TERMS

Terms: Cash with order. Prices F. O. B. Ellicott City, Md. or Nursery.

Guarantee: We guarantee all stock to be strictly first class and true to name and will upon proper proof refund the purchase price, or replace any stock which proves otherwise. It is understood and agreed that we will not be held responsible for any greater sum than the cost of the stock, should any prove untrue. We strive to avoid mistakes and believe that we are as exact as any in the business.

Telegraph or telephone us at Ellicott City, Md. 87-F-23.

References: Central Bank, Clarksville, Md.

We cannot guarantee stock to live. We guarantee all stock we sell strictly first-class and true-to-name, dug and packed properly for shipment; our prices compete with other reliable nurserymen. We do not charge a price for a plant or shrub, that should it die, we could replace it and then still make a profit. Stock often perishes when it is not properly planted and cultivated, also the severe cold and heavy storms of Winter and droughts of Spring and Summer, which is liable to occur, will sometimes cause the best of stock to perish, which is no fault of ours.

It is impossible for us to guarantee trees and plants to live, as this altogether depends on weather conditions and how stock is planted and cared for after planting. The conditions which prevail after stock leaves our hands are such that it is just as impractical for a nurseryman to guarantee a tree or plant to live as it would be for your best neighbor to sell you a horse or other live stock and guarantee it to live. We can only guarantee to send you good stock up to grade represented, full of life and true to name.

Shipments: After we deliver stock to the forwarding companies and receive their receipt for the shipment in good condition, our responsibility ends. If stock is damaged

We are open seven days a week from 7 a. m. to 5 p. m. except July and August when we are closed on Sundays.

TEN OAKS NURSERY AND GARDENS

while in transit, have agent at point of delivery to note such damage on freight or express bill, and present your claim for damage with said agent against forwarding companies. Keep copies of all papers. If adjustment is not made within a reasonable time take the matter up with us, we will endeavor to help you get a prompt adjustment.

Substitution: When sold out of a variety of trees or plants we frankly say so and when you allow us to substitute we will send a variety similar to the one ordered, as good or better; as we know the many varieties our substitution, if any, will be of advantage. Late in the season we are sometimes sold out of some varieties of stock, thus when sending your order, it is to your advantage to say whether we may substitute or not, that we may get the order off promptly, before the season is too far advanced for successful planting. If you do not wish us to exercise this right please mark your order sheet plainly **no substitution**.

Claims, if any, must be made within five days from receipt of stock. We cannot become responsible for misfortune of stock caused by droughts, floods, frosts, insects, fire, etc., and by stock not being taken from the express office for several days after its arrival.

Notice of Shipment: Notice will be sent you when your order has been shipped.

Garden Clubs—We will give garden clubs a nice discount if they will send their members' orders in to us as one.

TEN OAKS NURSERY AND GARDENS

DWARF POLYANTHA OR BABY ROSES

Two year old, Field Grown. While dormant they will be dug from the field, when the leaves start we will have all the same varieties in pots that can be moved and planted at any time. We think we have the best prices this year on Babies, as we sell them in quantity.

.50 each or \$5.50 per dozen, except where noted

Chatillion. A good bright pink.

Cecile Brunner or Sweetheart. Pink and gold.

Golden Salmon. Reddish-orange.

Gruss an Aachen, New. Orange pink to salmon.

Ideal, Dark scarlet.

We also have the **ROSA HUGONIS, The Golden Rose of China.** Very hardy and the first Rose to bloom in the spring. It is a sight never to be forgotten with its long graceful, arching branches loaded with golden flowers and fern-like foliage, then in August it is covered with bright red fruits. Finest shrub there is. Two year old plants \$1.00 each. One year old plants .50 each.

TEA, HYBRID TEA and PERNET ROSES

Or the Everblooming and Monthly Roses.

Following you will find all the best varieties that do well in this locality. They have been tried out here for three years and all have gone through the winters in fine shape with the general protection. These are all Two Year, Field Grown plants, budded on hardy roots and have never been inside a greenhouse. Plants dug from the field until the leaves start then we will have all the same varieties in pots that can be moved and planted any time with safety. The following prices have never been heard of, for this quality of rose.

.50 each or \$5.50 per dozen, except where noted.

Betty Uprichard, Salmon-Pink

Columbia, Rose-Pink

Dame Edith Helen, Clear Pink

Duchess of Wellington, Yellow

E. G. Hill, Scarlet-Red (new) \$1.00

Gen. McArthur, Scarlet

Joanna Hill, Light Yellow

Jon J. L. Mock, Carmine-Pink

Kaiserine A. Victoria, Creamy-White

Killarney, Double White

Killarney, Queen, Pink

Lady Hillington, Apricot-Yellow

Lady Margaret Stewart, Orange-Yellow \$1.00

Lady Ursula, Pink

Willowmere, Salmon

AZALEAS

Without doubt the most beautiful flowering plants we have in the garden or for foundation planting. We give a nice list of the better varieties that are hardy in this locality and you will have good results from them if you will follow our planting directions and care after planting. When the hole is dug to receive the azalea cart away all the earth and plant your azalea with the following mixture: One part rotten leaf mole, one part peat moss, one part sand, one part good garden soil. Keep well watered at all times in a dry season, never use lime near them and never cultivate but pull by hand the weeds. Protect from northwest winds in winter. Azalea fertilizer to be used should be a small amount of cottonseed meal and some well decayed stable manure. Plant in a well drained soil, not a place where water stands after a wet season. Plant in sun or part shade, never in a very deep shade.

These Azalea have been kept well pruned and are very compact.

Each

*Maxwellii. Very large, single, carmine-red flowers.	
18 to 24 in. high.....	\$2.00
*Ledifolia Alba. Indica type. Very large, single, pure white flowers. 18 to 24 in. high.....	\$2.00

COME AND SEE OUR ALPINE GARDEN

TEN OAKS NURSERY AND GARDENS

	Each
* Ledifolia Magnifica. Indica type. Very large, single, pure white flowers with pink mottled interior, 18 to 24 in. high.....	\$2.00
* Flame. Kurume type. Single, Madder-red, suffused with copper. 18 to 24 in. high.....	\$2.00
* Hinodegiri Kurume type. Brilliant scarlet. single. 12 to 18 in. high. A very dense and compact grower	\$2.00
* Hinomayo. Kurume type. Single, beautiful soft pink flowers. 18 to 24 in. high.....	\$2.00
* Pink Pearl. Kurume type. Semi-double, salmon-rose, with light centers. 18 to 24 in. high.....	\$2.00
* Snow. Kurume type. Semi-double, pure white, a compact grower. 18 to 24 in. high.....	\$2.00
* Mollis. Chinese type. Large single, orange to salmon flowers. 10 to 12 in. high, with from 3 to 8 branches. This one is deciduous	\$2.00
* Kaempferi. Chinese type. Single, light pink to salmon-pink to almost a salmon-red. 18 to 24 in. high ..	\$2.00
* Nudiflora. Native type. Beautiful pink. Collected from the wild upon a few days notice. 2 ft. high 3 to 4 ft. high.....	\$1.00 \$1.50

All the above Azalea will have from 25 to 100 buds on them that will bloom this year and when you see them bloom you will want more.

AZALEA

The following Azalea are in smaller sizes but with attention and winter protection, they will do just as well as the larger; of course they will have less bloom the first year or two. They will run from 8 to 10 inches high, will have 3 to 6 branches. \$1.00 each:

* Maxwellii , Carmine-red.	* Pink Pearl , Salmon-Rose.
* Ledifolia Alba , Pure white.	* Christmas Cheer , Brilliant Red.
* Hinodegiri , Scarlet.	* Pink Beauty . Clear Pink.
* Yayegiri , Salmond-red.	* Coral Bells , Shell Pink.
* Hinomayo , Soft Pink.	* Flame , Madder-Red.
* Maracantha , Rose-Salmon.	* Kaempferi , Pink.
* Ledifolia Magnifica , White - Rose.	* Mollis , Orange to Salmon.
* Calendulacea , Yellow to orange.	

The last three named are deciduous types.
